PROFILE

React.js and React Native Developer with experience building a mobile app at FlexiLoans. Skilled in JavaScript, TypeScript, HTML5, CSS3, Redux Toolkit, and REST API integration. Familiar with Agile teams, AI coding tools, debugging tools like Grafana, and basic backend operations.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frameworks: React.js, React Native (Expo), Redux Toolkit, Bootstrap, Material UI

React / RN: Hooks, React Router, Props, Forms & Validation, Authentication, i18next

State & Data: Zustand, TanStack React Query, Redux

Tools: Git, VS Code, Postman, JIRA, Grafana, Cursor AI, Kiro, Claude (AI Coding Tools)

Backend: REST APIs, Rate Limit Reset, DB Clean/Reset operations

Methodology: Agile — Sprint Planning, Standups, Retrospectives

WORK EXPERIENCE

React Native Developer

FlexiLoans · Pune · Sep 2025 – Present

- Built a React Native (Expo) mobile app for a digital lending platform on Android and iOS.
- Developed full loan journey — OTP login, KYC via DigiLocker/Aadhaar, document upload, and NACH mandate setup.
- Built a dynamic journey flow where the next screen is decided by the backend API — no hardcoded navigation in the app.
- Tracked loan application progress with completion percentage and current step status — all fetched from API.
- Integrated Firebase, CleverTap, Mixpanel, AppsFlyer, and AppTrove via a single analytics layer sending events to all 5 tools at once.
- Used Zustand (18+ stores) and TanStack React Query for state and API data management.
- Integrated FinBox SDK with secure SALT-based authentication; added root/jailbreak detection across 100+ device paths.
- Used Grafana for debugging and monitoring backend API issues during QA and production.
- Handled mobile number rate limit reset and database clean/reset for staging and QA support.
- Added English/Hindi language support using i18next with automatic device language detection.
- Used expo-updates for OTA updates and Expo EAS Build to release the app on Android.
- Used Firebase Performance Monitoring to track app startup time, screen load time, and network request performance.
- Integrated Upswing marketplace to show alternative loan offers to rejected users — used token-based WebView flow to open partner lender options.
- Took part in PRD discussions, gave KT to new interns, and worked with PM, Design, and QA teams.

EDUCATION

Bachelor of Computer Application (BCA) — CGPA: 7.07

Chandigarh University | 2024

Intermediate — HSC — 84%

New High School & Junior College, Solapur | 2021

Secondary School Certificate — SSC — 70.40%

S.R. Girls High School, Solapur | 2019
